

FAIRMONT SCHOOL CHILDREN SAVERS

Almost Five Thousand Dollars Was Saved During Last School Year.

Children in the elementary schools of Fairmont are \$4535.20 ahead of the year.

This amount represents their savings during the school year just ended according to a report from Otis G. Wilson, superintendent of schools. While school made the highest record contributing to the four thousand dollar total as children there saved \$194.75 since last September. Gertrude Johnston, winner of the first prize for the state in the recent thrift contest is a pupil at White, where interest in the thrift and saving movement is particularly keen.

The Fairmont school savings societies are said to be among the most active in West Virginia. Boys and girls organized the clubs last fall to cultivate habits of thrift in all things and to earn and save money for some definite object such as a college education. Their work is being encouraged by the United States Treasury Department, which feels that excellent results so far more than justify future work along this line.

SOCIAL EVENTS

Have Guest.
Mr. and Mrs. James O. Watson have as their guest at Fort Hill Miss Olive Wood, of Washington, D. C.

In Washington.
Mr. and Mrs. Paul V. Fleming whose marriage was an event of June 10 at Cambridge, Ohio, are now in Washington, D. C., the guests of the former's sister, Mrs. S. V. Hunning. They will arrive here on Wednesday and will take up their residence in an apartment on Pierpont avenue.

A. R. Watkins, who operated a gasoline bus from Annabelle station to the Four States mines and later vacated it to take up a contract to operate to Kilgore on the opposite side of the river, has made arrangements with the B. & O. railroad to run a bus between Century and Century Junction, Barbour county. After all arrangements are completed Mr. Watkins will run on the new route.

WE HAVE SPRAYERS FOR ALL PURPOSES

Our small hand sprayers will be found unusually handy for use with either a liquid or powder spray. So easy and convenient to use that even a woman or child can rid the garden, shrubs and vines of plant lice, green worms, potato bugs or mildew, without any difficulty. Bring your spraying problems to us, we will be glad to help you.

Hall's Hardware

ALL the great lovers in the world have been held in the meshes of some woman's glorious hair. The worship of that crowning glory of the feminine sex is older than poetry. And man's hair, too, has come in for an equal adoration on the part of women. Whoever heard of a scraggly haired woman being the heroine of a love story or of a baldheaded man being the hero? When the hair goes, the lover follows. And today, with our close-packed civilization the hair is going. Going so rapidly that over half the civilized world is becoming bald! And every other person you meet is asking,

How Can I Save My Hair?

The answer to that question now comes at last from no less an authority than F. A. Thompson & Co., one of the largest and oldest pharmaceutical houses in America, a house which for many years has manufactured the staple medicines for your physicians and druggists. The answer to your question, therefore, is

You Can Save Your Hair Only By Destroying The Germ That Destroys Your Hair

After many laboratory experiments, we have finally worked out a highly active hair food which is also a "bactericide" or destroyer of that germ. We have given this remedy a trade-name easy to remember and have called it "FAMO Hair and Scalp Remedy".

FAMO Will Destroy that Germ

We absolutely guarantee it with our reputation and your money back.

There is such a rich hair nourishment in FAMO and such a quick reaction against this germ that if you will use this remedy daily your scalp will become clean and lovely. The dandruff will disappear because the germ has been destroyed. And your hair will take on a healthy and natural gloss and luxuriant growth such as you have not known in years.

Dandruff the Result—Not the Cause

The trouble heretofore has been that people have mistaken dandruff for the cause, whereas it is only the result of this germ disease. The germ which destroys your hair attacks the glands of the hair near the hair root. And dandruff is merely the oil which these glands when so attacked throw off and which drives into little flakes upon the scalp.

To get rid of dandruff does not get rid of the germ. But to get rid of the germ does get rid of dandruff. And FAMO destroys that germ.

FAMO Has No Alcohol

Our final problem was how to keep our remedy in pure medicinal liquid form without alcohol. For many doctors know that alcohol if used often will dry the scalp, make the hair brittle and dandruff gray. We finally solved this problem and FAMO contains no alcohol!

If you are unable to purchase FAMO from the local dealer in your city send 10c with this coupon for a sample bottle.

35¢ and \$1.00 Bottles

Go to any Toilet Goods Dealer and get the large \$1.00 bottle which is guaranteed. Use it daily as directed and you yourself will see such immediate results that you will be amazed. Trial size may be had for 35c. All Toilet Goods Dealers.
